

COLLABORATIVE SUCCESS: A SHOWCASE OF NOVERO'S CLIENTS AND ACCOMPLISHED PROJECTS

COLLABORATIVE SUCCESS

Novero has worked with esteemed clients across industries such as mining, manufacturing, agriculture, and government. Collaborations with companies like Alfeco, Eskom, Daybreak Foods, and Sedibelo Platinum, and partnerships with Mintek and Gauteng Province, showcase our ability to support sustainability and industrial growth.

IMPACT AND SUSTAINABILITY ASSESSMENTS

Novero provides Environmental Impact Assessments, ECO services, and Section 24G Applications to help rectify unlawful environmental activities, driving sustainable industrial development.

RESOURCE MANAGEMENT

Our team assists clients with mining rights applications, rehabilitation plans, and compliance with DMRE regulations to ensure sustainable resource use and land restoration.

WATER MANAGEMENT

Novero handles Water Use License Applications and mine dump reclamation projects, ensuring adherence to water management practices under the National Water Act.

AIR QUALITY MANAGEMENT

We offer Air Quality Impact Assessments, Carbon Tax evaluations, and GHG reporting, alongside stack emissions monitoring and Dust Fallout Monitoring, ensuring regulatory compliance and reducing environmental impact.

WASTE MANAGEMENT

Novero specialises in waste management services, including Waste Management Licences, classification, and the safe transportation of hazardous waste, in full compliance with South African regulations.

COMPREHENSIVE MONITORING

Novero offers comprehensive environmental monitoring services as a turnkey solution, ensuring compliance with environmental standards. Our tailored programs facilitate ongoing assessments, empowering clients to meet regulatory requirements. We utilise advanced IT solutions and Geographic Information Systems (GIS) for user-friendly data visualisation and actionable insights.

OUR STORY & MISSION: NOVERO'S COMMITMENT TO A SUSTAINABLE FUTURE

Novero is a 100% female black-owned company, dedicated to providing tailored solutions in various sectors for both public and private organisations. Our team of experienced specialists is driven by a mission to foster sustainable practices that deliver tangible results. We focus on using cutting-edge technologies and innovative approaches to meet the unique needs of each client, empowering them to thrive while minimising their environmental footprint.

Our continued success lies in our ability to deliver comprehensive, data-driven solutions that support environmental stewardship, social responsibility, and sound governance. We align our services with our clients' goals, ensuring that each solution we provide not only solves their immediate challenges but contributes to the long-term growth and sustainability of their organisations.

At the core of our operating model is a results-driven approach, ensuring that every solution is value-added and targeted to improve the efficiency and effectiveness of the businesses and communities we serve.

OUR MISSION

Our mission is to provide solutions that help our clients thrive in an ever-evolving world by reducing their environmental impact and integrating sustainability into every aspect of their operations. We envision a future where sustainability is the norm, and together with our clients, we work towards making this vision a reality.

OUR SERVICES

ENVIRONMENTAL SOLUTIONS

Novero offers a broad range of environmental services to help organisations comply with regulations and manage their environmental impact. These include assessments, audits, and tailored environmental management systems focusing on air quality, waste, water conservation, and pollution control, aimed at reducing environmental footprints and ensuring compliance.

SUSTAINABILITY STRATEGIES

At Novero, we integrate sustainability into business operations by developing strategies that optimise energy use, reduce waste, and promote resource efficiency. Our customised solutions align sustainability goals with business objectives to enhance profitability and corporate responsibility.

RESOURCE MANAGEMENT

Novero helps organisations optimise resource use, from water and energy to mineral assets, using advanced technologies for efficiency and sustainability. Our services support cost reduction, sustainable extraction, and best practices for reducing resource consumption and waste.

BUILT ENVIRONMENT

Novero provides sustainable design and development solutions for buildings and infrastructure, ensuring energy efficiency and low environmental impact. We work with developers and architects to meet regulatory standards and promote sustainable urban development for livable communities.

WHY CHOOSE NOVERO

- **Experienced Team:** Our team of experts has years of experience in environmental sustainability, energy management, resource optimisation, and the built environment. This diverse knowledge allows us to tackle a wide range of challenges, ensuring we deliver effective and relevant solutions.
- **Tailored Solutions:** We understand that no two organisations are the same. That's why we customise our services to meet the specific needs of each client, offering solutions that are flexible and scalable to fit both small-scale initiatives and large, complex projects.
- **Impact-Driven:** Success for us is not just measured by results but by the positive impact we make on our clients and the planet. We design our solutions with a focus on long-term sustainability, ensuring that they align with both environmental and business goals.
- **IT and Innovation for Sustainability:** We integrate advanced technology, including smart systems for real-time monitoring and optimisation of environmental and resource management processes. This allows organisations to make informed, data-driven decisions that improve productivity, reduce costs, and lower their environmental footprint. Our solutions leverage the latest advancements in IT to help our clients stay at the forefront of sustainability innovation.
- **In summary,** choosing Novero means partnering with a team that is proudly registered with EAPASA and SACNASP. Under the leadership of Nonhlanhla, our Lead Technical Director, who holds international IEMA certification as a Carbon Analyst and ISO 14064-1 training, we are committed to sustainable practices and excellence in environmental management.
